From accessories and furniture pieces that range from rustic to contemporary, including the latest Rimowa and Moncler collaboration, this month's selections capture the start of a new season.

## Le Baux Collection

Chapter 101

Dubai-based Chapter 101's capsule vase collection, Le Baux, is inspired by the natural sceneries of Les Baux-de-Provence in France, taking cues from its architectural forms, rustic textures and natural materials to create handcrafted pieces that are authentic and rooted in its context. The collection aims to bring not only a decorative element to a space, but also a cultural experience.
